

VESDA Power Supply End of Life (EOL) Timeline Update

March 2026

Overview

We have previously announced the discontinuation of the legacy VESDA Power Supply models with a Last Time Buy (LTB) date of March 27, 2026. To better support customer planning and transition to the replacement models, **we are extending the LTB date to May 29, 2026**. After this date, we will no longer accept purchase orders for these products.

We recommend transitioning to the replacement SKUs as early as possible to ensure continued support and product availability.

Affected Products and Alternatives

The table below lists the discontinued SKUs and their corresponding alternatives:

Discontinued SKUs	Description	Alternative SKUs	Description
VPS-100US-120	Power Supply 120VAC/60Hz/1.4A	VPS-100US-UL	Power Supply 120 - 220VAC/60Hz/1.4A - 0.9A
VPS-100US-220	Power Supply 220VAC/60Hz/0.9A		
VPS-300US-120	Kit for VPS100US-120 and Battery Cabinet	VPS-300US-UL	Kit for VPS100US-UL and Battery Cabinet
VPS-300US-220	Kit for VPS100US-220 and Battery Cabinet		

Product Warranty

Standard product warranty will be honored as per the applicable company policy for the relevant product line in one of the two ways below:

- Products failing within the standard warranty period will be repaired or replaced with the same or comparable product, retaining the original warranty period.
- Should a product fail within the standard warranty period and not be repairable/replaceable, we will refund the full purchase price or issue a credit note as agreed with the customer.
